PROFESSIONAL SUMMARY

Computer Science undergraduate and Python Developer Intern at Infotact Solutions, working in a team on ChronosMatch, a zero-copy high-frequency trading engine. Builds Python and Flask projects step by step with Git and GitHub, and holds a HackerRank Python (Basic) certification. Seeking Python Developer internship opportunities to grow practical, team-based development skills.

TECHNICAL SKILLS

- **Languages:** Python, C
- **Developer Tools:** Visual Studio Code, Git, GitHub
- **Core Competencies:** Data Structures, Object-Oriented Programming (OOP), Logic & Decision-Making, Data Processing
- **Soft Skills:** Communication, Problem Solving, Teamwork, Adaptability

EXPERIENCE

Python Developer Intern — Infotact Solutions, Remote | 2026 – Present (Ongoing)

- Contributing to ChronosMatch, a team project to build a zero-copy high-frequency trading engine in Python, working on a dedicated Git branch alongside teammates.
- Building a Flask web application, Student Study Planner, as an internship portfolio project, following a structured 5-day plan with one Git commit pushed to GitHub each day.
- Using Git and GitHub for version control: branching, committing, pushing, and maintaining a README.

PROJECTS

Student Study Planner (Python, Flask, HTML/CSS, Git)

- Built a Flask web app that helps students organize study time, with a dashboard, add/view/complete/delete tasks, subjects, and progress tracking.
- Added input validation and a clean, responsive interface, plus an About section.
- Developed over a 5-day plan with five incremental Git commits, each pushed to GitHub.
- Repository: github.com/Sushmitha-BA/student-study-planner

ChronosMatch: Zero-Copy High-Frequency Trading Engine (Python, Git, GitHub) | Team project, Infotact Solutions

- Part of a team building an original zero-copy high-frequency trading engine, developed from scratch.
- Working on a personal branch and following a team plan with daily commits and defined file and folder ownership per member.
- Repository: github.com/doddaboinasusmitha/chronosmatch

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science — Akash Institute of Engineering and Technology, Bengaluru
CGPA: 7.1/10 (2nd year)

Class 12 (PU) — Presidency PU College, Yelahanka
409/600 (First Class)

CERTIFICATIONS & LEARNING

- **HackerRank:** Python (Basic) Skill Certification, Sep 2026
- **Microsoft Learn** (Sep 2026): Get Started with Python Programming: Part 1 – Fundamentals (Write Your First Python Code; Work with Data in Python; Add Decision-Making to Your Code; Install and Configure Visual Studio Code)

LANGUAGES

English, Kannada, Hindi
